

SME Student Chapter Professional and Social Responsibilities Policy

The Department of Mining Engineering encourages the students to participate in as many SME activities as possible to enhance their professional capabilities, provided the participation does not affect their academic status. To participate in the SME activities there are rules to be followed and appropriate social behavior is expected.

- The officers are responsible for the duties of the job description assigned to each position.
- Each officer should provide their best service while they hold a position.
- The officers are responsible for fund raising for their activities.
- The officers encourage all the students to participate in the activities.
- A point system may be used by SME officers to decide how much support each individual receives for a trip.
- The point system should be drafted by the officers, be approved by a majority of the membership and the faculty, and posted.
- During field trips, it is the responsibility of each individual student to behave professionally and maintain the best social behavior while representing the Department of Mining Engineering and West Virginia University.
